

ProLine^{XL}

Components

- (2) ProLine 10-Ton Pull Towers w/Ram
- (1) Air Hydraulic Pump w/Hose (lift)
- (1 per tower) Air/Hydraulic Pump w/Hose & Gauge
- (1 per tower) 3/8" x 14' Heavy Duty Chain w/Slip Hook
- (1 per tower) Safety Cable w/Hooks
- (2) Pump Trays
- (2) Removable Crossmembers
- Height Adjustable Universal Clamping System (Set of 4)
- (1) Double Pull Block
- (2) Tie-Down Assemblies
- (1) Down Pull Assembly
- (1) 3 Bag Air Jack with Oak Block
- (Set of 2) ProLine Short Ramps

ProLine^{series}

TOUGH TO BEAT. It can only be a **KAR GRABBER**
R.G. GRABBER, INC.

ProLine Series

Tough enough to handle all the traffic from full frames to long bed trucks even dualies. **TOUGH TO BEAT.**

Powerful 10-ton towers each equipped with easy-adjustable collars for precise pull height and angle pull positioning

1/2" top deck plate provides stability during pulls

Tie-down holes provide unlimited holding options

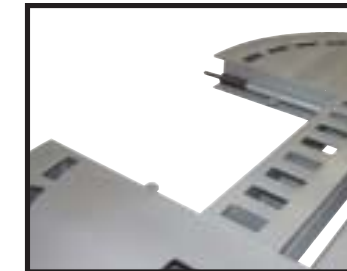

Angled-tower pins allow for fast and easy tower positioning

Versatile unibody pinchweld heads adapt to most specialty clamps

Tie downs install from top of deck for fast and easy set up

Removable crossmember on each end provides technicians with under vehicle access

Height adjustable clamping system securely anchors vehicles

ONE CYLINDER DOES IT ALL!
The single cylinder on ProLine's XL model provides power for **BOTH** the tilt and level lift featuring eight working heights

Unique bearing design allows towers to glide smoothly 360° around platform

ProLineXL

More Features

- 10-Ton air/hydraulic towers
- Full range of working positions from 17" to 40" accommodates most vehicles
- Down pull assembly makes down pulls easier than before
- Tie down assemblies for added holding options
- 3-Bag air jack for additional lift
- Level lift with automatic safety locks (air operated) for technician safety
- 25-ton, single cylinder operates tilt & level lift
- Double pull block boosts pulling power & allows multi-pull capability
- Electric hydraulics **OPTIONAL UPGRADE**
- Hand-held control operates **OPTIONAL** electric hydraulics from any position around the rack

ProLine

- 10-ton air/hydraulic towers
- Tilt bed for easy loading
- 20-tons of pulling power
- Pumps rest in tower trays for neat storage off floor
- Comfortable 20" working height
- Obstruction-free work zone beneath rack

Not all racks are created equal.

The ProLine Series gives body shops the most rugged, powerful rack system in the market today.

ProLine's 6" deck boasts a top plate engineered stronger to stand up to any pull.

Our flat, even deck surface provides hassle free set up of system accessories and allows measuring with ease.
